TEA

In Germany and Europe, the industry has badly influenced the development of laws: Not health is important, but profit of multinationals! Because of this, by the German Drug Advertising Law, we from "anamed edition" are no longer allowed to describe AND sell these products in the same time. In case you need these teas, you may write us a simple private email to anamedhnh@yahoo.de, we try to find a solution for you, yours Hans-Martin Hirt, PhD.
